

15 Hilarious Comics That Illustrate the Struggles of Being a Parent

When we bring children into our lives, most of us are incredibly excited at the prospect of what's to come. What we quickly come to realize is that raising this child is going to be just as difficult as it will be amazing.

Brian Gordon is one dad who understands this just as well as anyone. He's also a pretty awesome cartoonist. Put the two together and you've got [Fowl Language](#), a comic Gordon created that finds humor in the life of a parent.

While Gordon's comics span a wide range of topics, his parenting ones in particular are becoming quite popular among parents from all over the world.

"My comics are largely autobiographical," Gordon [told Upworthy](#). "I've got two kids who are four and seven, and often, what I'm writing happened as recently as that very same day."

The first comic on the list, dubbed "[Welcome to Parenting](#)," is Gordon's favorite.

"Parenting can be such tedious drudgery," Gordon told Upworthy, "but if it wasn't also so incredibly rewarding there wouldn't be nearly so many people on the planet."

He's got a point!
